

NELSON BECHEM

Software Engineer

EXPERIENCE

Jun 2018
Present

BACKEND DEVELOPER

Glotelho | Douala

- Developed and maintained RESTful APIs using NestJS and NodeJS frameworks.
- Collaborated with cross-functional teams to integrate backend systems with frontend applications.
- Implemented security measures, such as user authentication and authorization, to protect sensitive data.
- Leveraged SQL databases (e.g., MySQL, PostgreSQL) to store and retrieve data efficiently.

EDUCATION

2015
Dec 2020

BACHELOR OF COMPUTER ENGINEERING

University of Buea | Molyko _Cameroon

2010
Jun 2015

F3 ELECTRICAL TECHNOLOGY

G.T.H.S Buea | Molyko_Buea

PROJECTS

I designed the architecture for Enterprise Resource Planning (ERP) software for a logistics microservice that required careful consideration of various factors, including the specific needs of the enterprise, scalability, modularity, and security. Below is the link to the GitHub the backend architecture and code for the ERP system.
<https://github.com/EngNelson/erp-solution/tree/main/src> and the technologies and frame work used are Typescript and NestJS.
